Unmatched combination of
performance, efficiency and affordability.
That's just what you'll get with
HVAC Direct™

For reliable warmth and money-saving energy efficiency

As a home owner, you try to find a balance between your family's comfort and your monthly energy costs. To meet those needs, we've developed the HVAC Direct™ brand HKS9 Energy-Efficient Multi-Speed Gas Furnace.

Year-Round Energy Efficiency

Energy efficiency is key to controlling the cost of heating your home. This furnace's 92.1% AFUE rating means 92.1 cents of every \$1.00 of heating energy expense warms your home. Some older central heating systems rate at 60% AFUE, meaning only 60 cents of every \$1.00 of heating energy expense warms your home. The remaining 40 cents is lost energy – wasteful and expensive.

Quiet Operation

Your HVAC Direct™ brand HKS9 Furnace uses a multi-speed blower motor and sound-isolated blower assembly to reduce the noise levels common in other furnaces. Add an insulated, heavy-gauge steel cabinet, and the result is... quiet comfort.

What should you expect from your HVAC Direct™ HKS9 Energy-Efficient Multi-Speed Gas Furnace? How about a superior combination of performance, efficiency and affordability? That's just what you'll get with HVAC Direct™.

When properly installed, your HVAC Direct™ brand High-Efficiency Furnace meets the higher standard of the Environmental Protection Agency's (EPA's) Energy Star Program. ** Additionally, the HVAC Direct™ brand HKS9 Furnace is designed to minimize NOx emissions, contributing to better air quality.

**Energy Star ratings are dependent upon conditions beyond equipment installation. To make certain your HVAC equipment qualifies for the Energy Star designation get complete information at www.energystar.gov.

Reliability and Longlife

The heart of any furnace is the heat exchanger. Our patented, aluminized-steel tubular heat exchanger and stainless-steel recuperative coil have been tested to industry standards.

For further safety and reliability, we also include our high-quality Silicon Nitride Igniter, the most durable igniter in the industry, that helps ensure safe start-ups and maximum igniter life.

**QUALITY MANUFACTURING BACKED
BY EXCEPTIONAL WARRANTIES***

Outstanding Quality

From HVAC Direct™, you can depend on well designed, top-quality, thoroughly tested products, backed by what we believe to be one of the best standard warranties and extended service plans in the industry. Every single furnace and air conditioner is run-tested before shipment to help ensure a trouble-free installation and long product life.

Additional Information

Before purchasing this appliance, read important information about its estimated annual energy consumption, yearly operating cost, or energy efficiency rating that is available from your retailer.

Impressive Features and Benefits:

HVAC Direct™ Brand HKS8

Multi Speed Gas Furnace
