Unmatched combination of *performance*,
efficiency and *affordability*.

That's just what you'll get with the
HVAC Direct

Keep your family in Energy-Efficient Comfort for years to come.

HVAC Direct's HPH15M –15 SEER* Heat Pump provides refreshingly-affordable value to homeowners and small businesses while helping keep energy bills to a minimum.

HVAC Direct Packaged Units sit on the ground or rooftop outside your home or business and deliver quiet, year-round comfort from a single, self-contained unit. These high-efficiency up to 15 SEER units operate as an air conditioner during warm weather, and in the winter deliver heat pump-generated warmth. All units come fully charged and tested with environmentally-friendly R-410A refrigerant – direct from the factory.

Packaged Heat Pumps

The high-efficiency HVAC Direct HPH15M Packaged Heat Pump provides economical air conditioning, then, by reverse cycle, delivers economical heating during colder periods. Supplementary electric heat is added at predetermined temperatures during severe cold spells.

Quality Manufacturing backed by Warranties and Service Reliability and Long Life

One of the most critical components of a packaged heat pump is the compressor. Our HPH15M Packaged Heat Pump boasts a high performance, high-efficiency compressor, which operates in tandem with our high-efficiency coil. The coil is made of refrigeration-grade copper tubing and aluminum fins in a design that maximizes surface area. These high-quality components together cool your home effectively while saving you money on energy bills!

Solid Warranty Protection

HVAC Direct HPH15M Packaged Heat Pumps have a 10-Year Limited Warranty for all functional parts.**

For even greater protection and worry-free ownership, ask your HVAC Direct dealer about HVAC Direct, an affordable, extended service plan for the entire system.

R-410A REFRIGERANT Your new HVAC Direct HPH15M Packaged Heat Pump will not only provide you with energy-saving cooling performance for many years, but it also features R-410A refrigerant. Since this refrigerant does not contain Chlorine, it is more environmentally friendly than R-22 refrigerant, which is currently used in most air conditioning systems.

Guaranteed Quality

From the HVAC Direct brand, you can depend on well-designed, high-quality, thoroughly-tested products, backed by some of the best standard and extended warranties in the industry.**

All HVAC Direct production facilities are focused on strict, quality-driven processes. This quality focus ensures a trouble-free installation and long product life.

Nationwide Support

We supply our Distribution Network through our new, state-of-the-art logistics center. And with more than 700 distribution locations and thousands of dealers coast-to-coast, you can be confident that a qualified service provider is always close by.

Impressive Features and Benefits: HVAC Direct HPH15M Packaged Heat Pump Unit

- 10-Year Parts Limited Warranty**
- Fully charged R-410A system
- Up to 15 SEER/8.0 HSPF*
- High-quality, high-efficiency compressor
- High Efficient Booster Motor (HEM)
- Quality powder-paint finish resists fading and corrosion
- Fully-insulated blower compartment for quiet operation
