

QUALITY MANUFACTURED
AIR CONDITIONING
THAT CAN REDUCE
OPERATING COST WHILE
ADVANCING HOME COMFORT.

Every HVAC Direct heating and air conditioning system is designed, engineered, and manufactured with pride. All employees follow strict, quality-driven processes to ensure that all HVAC Direct products offer the legendary performance that has made the brand a recognized leader in the industry.

HSZ13

ENERGY-EFFICIENT HEAT PUMPS
UP TO 13 SEER PERFORMANCE

- 10-YEAR PARTS LIMITED WARRANTY*
- CHLORINE FREE R-410A REFRIGERANT
- LEGENDARY HVAC DIRECT PERFORMANCE AND QUALITY

Our continuing commitment to quality products may mean a change in specifications without notice.

* To receive the 10-year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec. Full warranty details available at www.hvacdirect.us.

Unmatched combination of performance, efficiency and affordability. That's just what you'll get with **HVAC Direct**

Energy Efficiency is Key...

To Controlling the Cost and Comfort of Heating your Home.

As the owner of a HVAC Direct brand HSZ13 Energy-Efficient R-410A Heat Pump, you have made one of the best purchasing decisions possible in the HVAC marketplace. Why do we say this? Because at HVAC Direct, we strive to build heating and air conditioning equipment that offers high performance, energy efficiency, and durability.

R-410A Refrigerant

Your new HVAC Direct HSZ13 R-410A Heat Pump will not only provide you with energy-saving cooling performance for many years, but it also features R-410A refrigerant. Since this refrigerant does not contain chlorine, it is more environmentally friendly than R-22 refrigerant, which is currently used in most air conditioning systems.

Add to that a 10-Year Parts Limited Warranty* on all functional parts, and you have an air conditioner that offers one of the best product values in the industry.

Enduring, Efficient Performance.

You can count on your HVAC Direct brand HSZ13 Energy-Efficient Heat Pump to keep you cool on even the hottest summer days. Your HVAC Direct heat pump starts with a high-performance, energy-efficient compressor, which operates in tandem with our high-efficiency coil. The coil is made of rifled refrigeration-grade copper tubing and corrugated aluminum fins in a design that maximizes surface area. These highquality components together cool your home effectively.

And if that's not enough, HVAC Direct goes one step further: we install a liquid-line filter dryer in every heat pump we build. The filter dryer prevents moisture and debris from entering the compressor motor and expansion device, thus preserving the life of the system. Many manufacturers leave this step out, but we've installed filter dryers in our heat pumps since we first started making them.

Your Unit's Operating Costs and SEER/HSPF.

"SEER" stands for Seasonal Energy Efficiency Ratio, which is a measurement of an air conditioner or heat pump's cooling energy efficiency developed by the U.S. Department of Energy (DOE). "HSPF", or Heating Seasonal Performance Factor is the DOE's measurement of a heat pump's heating efficiency. Both formulas are simple: the higher the SEER/HSPF of your unit, the greater its efficiency – and the lower your operating costs.

When properly matched and installed, your new HVAC Direct HSZ13 R-410A Heat Pump offers efficiencies that provide significant savings compared to lower SEER units.

Quality Manufacturing backed by Exceptional Warranties*

Quiet You Can Count On.

We know that the last thing you want to hear at night is a noisy heat pump starting up. So we build our HVAC Direct HSZ13 Energy-Efficient heat pumps with sound-dampening features that help ensure that your cooling system doesn't interfere with a good night's sleep. We rely on a quiet condenser fan system – a three-bladed fan and a unique louvered sound-control top – to reduce fan-related noise. Your HVAC Direct HSZ13 Energy-Efficient heat pump will keep you cool and comfortable.

Durable Construction.

At HVAC Direct, we take pride in our manufacturing and build each unit carefully. We rely on strict, quality-driven processes to build well-designed, top-quality, thoroughly tested products, backed by what we believe to be one of the best standard warranties and extended service plans in the industry. We leak-test every single heat pump three separate times during the manufacturing process, and we run-test

each unit before shipment. This quality focus insures a trouble-free installation and a long product life.

Impressive Warranty.*

We take extra care to build products that will last for years to come. And we're so confident in the durability of our products that we protect your HVAC Direct brand HSZ13 heat pump with a 10-Year Parts Limited Warranty* on all functional parts.

For even greater peace of mind, ask your dealer or visit our web site at www.hvacdirect.us for more details about HVAC Direct affordable Parts and Labor Extended Service Plan for your entire HVAC Direct brand system.†

Additional Information.

Before purchasing this appliance, read important information about its estimated annual energy consumption, yearly operating cost, or energy efficiency rating that is available from your retailer.

Impressive Features and Benefits:

HVAC Direct brand HSZ13 R-410A Energy-Efficient Heat Pumps

- 10-Year Parts Limited Warranty*
- A high-performance, energy-efficient compressor
- Energy-efficient heating performance up to 8.4 HSPF
- Chlorine-free R-410A Refrigerant
- A factory-installed bi-flow, liquid-line filter dryer
- A louvered cabinet made of heavygauge galvanized steel that protects the coil, while its appliance-quality, post-paint finish resists the effects of weather and time
- A three-bladed fan; and a louvered sound-control top – all of which add up to quieter system performance
- A high-efficiency condenser coil made of corrugated aluminum fins and rifled refrigeration-grade copper tubing
- An attractive new design, finished in an Architectural Gray color that complements any home environment
- Performance certified in accordance with the Air Conditioning, Heating and Refrigeration Institute

* To receive the 10-year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec. Full warranty details available at www.hvacdirect.us.

† Extended Service Plans not available in all states. Ask your dealer for full details.
